Lighting split pole 4m black

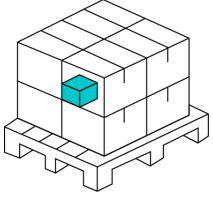

Product description

Lighting split pole is a revolutionary solution for public and private spaces that require flexibility and reliability. The pole is made of high quality Q235 galvanised steel for durability and corrosion resistance. Adjustable in height from 2 to 5 metres, the folding lighting pole can be easily adapted to different lighting needs. The compact packaging makes it easy to transport and install, making it an ideal choice for parks, car parks, housing estates and private properties.
